## Fun Go Problems

### Ladder

The technique of reducing the opponent's liberties in a continuous and ladder-like pattern is called "ladder."

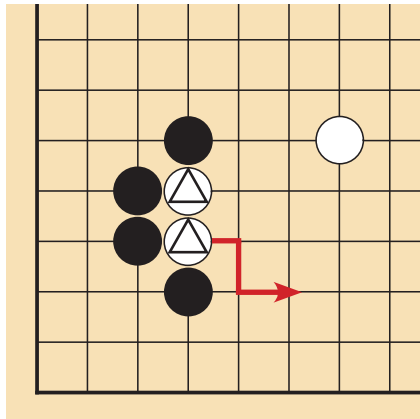

### Ladder Breaker

An opponent's stone that interferes with the ladder attack is called a "ladder breaker."

## 🐱 Ladder

- 01 Draw a ladder-like pattern in the direction you want to drive the opponent.

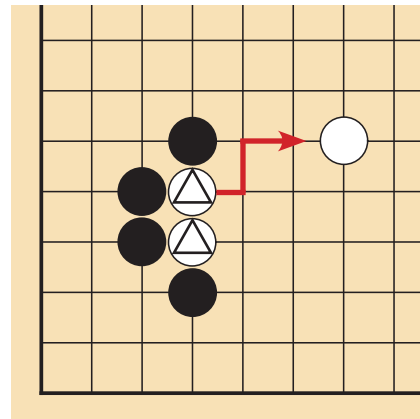

- 02 Driving the ladder toward an area without a ladder breaker is better.

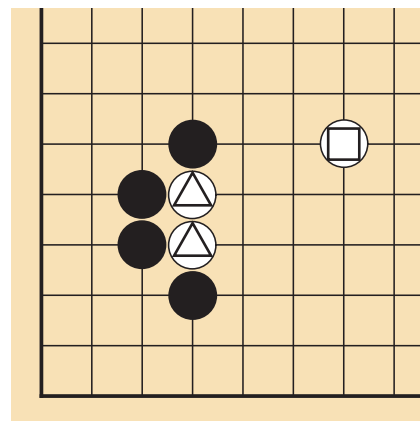

- 03 You can capture the opponent's stones by continuously blocking their liberties.

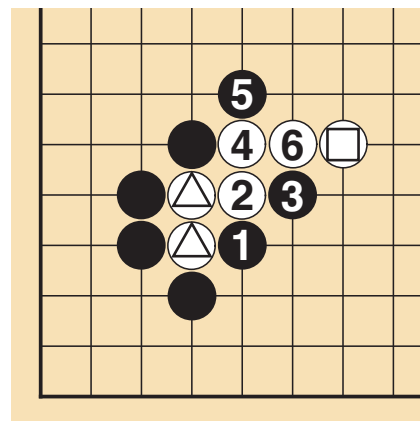

## 🐱 Ladder Breaker

- 01 Draw a ladder-like pattern in the direction you want to drive the opponent.

- 02 Driving the ladder toward a ladder breaker is not a good strategy.

- 03 You cannot capture the opponent's stones even by continuously blocking their liberties.
